HELPLESS BABIES.

Most to be Pitied of All Living Beings.

Decisive Battles of Weaning and Teething.

Issue Rests on Fitness of Child's Food.

Lactated Food Has No Equal as a Diet in Summer.

Mothers, Nurses, and Physicians Recommend It.

A child's first five years are one continual battle for existence.

A helpless baby in the hands of parents or nurses who do not fully understand the peculiar needs of childhood is the most to be pitied of all living be-

Its precious life is hourly exposed to peril from improper food and uncleanliness. Hot weather threatens the unguarded ones with diarrhoea and cholera infantum. Weaning and teething reduce the strength and make them apt to yield to summer disease.

Precious little lives sacrificed to Ignorance! Every one might be saved. All these diarrhoeal diseases, whether cholera infantum, diarrhoea or summer complaint, are preventable. Physicians emphatically say so.

Hot weather alone will not produce these disorders; it simply weakens the infant digestion, and makes it easy for improper feeding to bring on dreaded

What then is proper diet for baby in

Healthy mother's milk is best; but when the child is being weaned, or when its natural food is thin and watery and unable to keep baby strong and well, lactated food must be used at once, either to supplement mother's milk or as a complete diet.

The principal element of mother's milk is sugar of milk. This is the basis of lactated food. With it is combined the nutritious elements of the great cereals, wheat, oats and barley, so pre pared as to be readily digested and assimilated. The addition of the salts found in mother's milk makes lactated

food a perfect substitute. Mothers who are weaning their little ones find that nothing else so well agrees with their children.

Lactated food works marvels with little ones who are puny and pale. A week or two suffices to show its splendld effect in brighter eyes, fairer skin, livelier manner, and a steady

gain in weight. Lactated food saves babies' lives. It is the surest preventative in the world | Cyrus H. Miller, West Winsted; Rob for cholera infantum. It is within everyone's reach, and is so inexpensive that no mother ever had a real excuse for not using it.

Emperor. Berlin, Aug. 13 .- Prince Bismarck has sent an apology to Emperor William saying that he greatly regrets that he will be unable to accept the invitation to attend the laying of the foundation stone of the monument to Emperor William I, on Sunday next. The prince says that his health forbids his making any special exertions.

The celebrations in honor of German war victories continue. To-day four hundred Bavarian ex-soldiers, accompanied by bands, held a demonstration before the Germania monument at Ruedesheim. A number of speeches brimming over with patriotism were delivered, exciting the greatest enthusiasm among their hearers.

A special train conveying a large number of Saxon veterans arrived at Saarbruekeen to-day and the old soldiers visited the Spicheren battle field afterwhich they continued their journey to Metz, carrying many wreaths. Speech es were made on the battle field. At Spandau, the Prussian veterans celebrated the battle of Spicheren. Deputy Schall, who is now a clergyman, delivered a speech.

The Stock Market Was Again Dull and Professional,

New York, Aug. 13 .- The stock market was dull and professional again to-As a rule the active issues were in the early trading, the talk about gold exports and moderate sales for foreign account having led to a decline of 16 to 16 per cent, all along the Toward II o'clock Distillers moved to the front and on good buying rose to 22%, an advance of 1% per cent. The rise was due to the decision rendered by the courts which will prevent any interference with the Water bury reorganization committee in its work of rehabilitating the property The judicial sale takes place in Chi cago to-morrow.

American Tobacco was rather weak on the announcement of the organization of a rival cigarette concern at St. Louis. The stock declined 1% to 111% @ 111%. Missouri Pacific was forced down a point to 37 on light offerings but quickly recovered. A period of duliness followed the movement recorded above but during the afternoon the anthracite coalers and grangers loomed into prominence and advanced sharply, Jersey Central rose 2% to 106, Delaware & Hudson 114 to 13114, Lackawanna 11/4 to 1631/2, Reading 1/4 to 19 @ 18%, Rock Island 1% to 80 @ 79%, Northwest % to 10214 @ 102, St. Paul 1/2 to 71% @ 70%, Burlington & Quincy 11/2 to 91 @ 90% and Chicago & Eastern Illinois preferred, 1/2 to 1031/2.

The anthracite coalers were strength-

ened by the revival of the old reports that the efforts were being made by the leading bankers to settle the trade difficulties. The reports as usual could not be confirmed, but the impression is that the condition of the coal trade is so bad that a change must necessarlly follow. The largest buyers of the grangers were firms supposed to be acting in the interest of insiders. Other particularly firm stocks were Erie Telephone, Manhattan and Susquehan na & Western preferred. The with-drawal of \$900,000 gold from the subtreasury for shipment to Europe to-day had no effect whatever on the market which closed quiet and strong. Net changes show advances of 1/4 to 21/4 per ent., New Jersey Central leading.
